

WISER - NOW MORE POWERFUL THAN EVER!

## FAST AND PAINLESS SUPERPULSED SURGERY

WISER, the wireless laser, now features an incredible surgical advantage: a peak power of 14W combined with superpulsed technology (microsecond intervals) leads to these unique benefits:

- exceptional cutting speed and precision thanks to the combination of high output power and extremely short pulses;
- the superpulsed mode creates permits a suitable thermal relaxation time (TRT) of target tissue, avoiding undesirable tissue damages;
- no tissue charring means shorter recovery time.

Painless, efficient and gentle operation, with the most powerful, compact and portable diode laser on the market today!
