About us

doctor smile made in italy quality

Doctor smile dental lasers are manufactured by LAMBDA, an Italian company dedicated to laser applications for over 20 years. We focus on quality and innovation to provide the best medical devices to doctors world wide. Our brand has obtained international recognition and FDA approval from Asia to the US.

full support

With doctor smile you are never alone: we offer full support for your technical, clinical and sales queries. Our internal service offers a prompt reply and complete assistance.

training courses

not only laser dentistry

The doctor smile training center is only 40 km from the timeless beauty of Venice:

offer your clients **a weekend of fun and learning** in the most beautiful city in the world! Thanks to our expert laser tutors and academic collaborations we can provide high level training for new and expert laser users.

marketing support

doctor smile web 3.0 and more

World wide web access from doctor-smile.com website; clinical and product videos on You Tube; updates on Facebook and Twitter.

Free of charge brochures, displays for exhibitions and much more!
