A degree-awarding Fellowship Course will be conducted on the four days immediately preceding the Congress. Attendees at this outstanding course will be granted complimentary registration to the International Congress in Laser Dentistry.

## Fellowship Course Monaco (France)

September, 2<sup>nd</sup>-3<sup>rd</sup>-4<sup>th</sup>-5<sup>th</sup> 2013

- The Fellowship Diploma of the University of Genoa, Italy shall represent a course of didactic education, practical clinical simulation and examination in the use of lasers as an adjunct to clinical dental surgery and medicine. The course shall be conducted during a four-day meeting. The official language shall be English.
- The course is designed to provide evidence-based core knowledge in laser use in dentistry and to refine practical skills. Emphasis is placed on the integration of this course into the on-going practice of dentistry for each participant and their dental patients.
- The teaching faculty shall be members of the Faculty of Medicine, University of Genoa and accredited International specialists in laser dentistry.
- Each course attendee shall be required to sit a multiple-choice examination, comprising 75 questions. The pass mark shall be 70%.
- Successful completion of the course and examination shall be recognised by the presentation of a certificate: "Fellowship in Laser Dentistry". This shall define a level of competence that is consistent with an experienced laser user.

Course fees per delegate: € 2400.00.

This fee includes lunch and two coffee breaks each day of the course and the participation in International Congress in Laser Dentistry. Hotel rates during the course are approximately € 200 per room per night.
