- Skills inculcation pertaining to Laser therapy for the benefit of the patients so that the trainee can proficiently use Lasers.

Faculty :

The training will be conducted by senior & expert faculty from India who have acquired name in the field of Lasers & have gained substantial experience in Laser applications. The final module will be conducted by the faculty members from the University of Genova, Italy.

Evaluation of Trainees :

The evaluation modality for the said course shall be according to the CGPS System.

Successful completion of the course and examination shall be recognized by the presentation of

***Diploma in
Laser Dentistry***

Some facts about the Universities

The University of Genova with a student population of over 35,000 and a faculty of 1600, is one of the largest academic institution of Italy, a medical faculty was founded in the XV century as a college which was located in the medieval area of town. In the thirties, the hospital service were transferred to the San Martino district and now covers over 90,000 Sq. m of hospital space, laboratories, teaching and sport facilities, libraries and offices.

The center of Laser surgery and Laser Therapy, directed by **Prof. S. Benedicenti** was established in 1998 and consists of an academic department exclusively dedicated to the technology. The university structure is located within the complex of the San Martino Hospital in Genova and is part of the Department of Science and Technology, Biophysical medicine and dentistry.

The **PMS College of Dental Science & Research**, at Thiruvananthapuram is the brain child of NRI Services and Educational trust established in 2002 by NRI professionals under the able guidance of the visionary Dr.P.S Thaha. The College, a pristine institution catering to the needs of students yearning for knowledge with a burning curiosity and desire to reach the pinnacle of professional education, now has ascended to a pedestal of excellence as an esteemed postgraduate institution.

This Institution is founded as a venture towards the cause of enhancing the state's self-reliance in the field of quality education in dental medicine and surgery and meets the standards of the most prestigious foundations in and outside India in terms of facilities and faculties.

The University and the College intends to launch various Educational Programs which are not ordinarily covered in the routine Under Graduate and Post Graduate syllabi and to give advanced training to the students through innovative Diploma and Fellowship Programs in the field of Laser application in Dentistry, Implantology, etc. to give more edge to this program. The University has freely collaborated with the other Universities in the pursuit of excellence
