WIRELESS FOOTSWITCH for Simpler laser

doctor smile press release

April 12th, 2012

Now available: wireless footswitch for the Simpler diode laser.

Doctor smile dental lasers announces the launch of the wireless pedal for the Simpler diode laser. As always, doctor smile is committed to offering every possible option to practitioners: the wireless footswitch is yet another reason to choose the doctor smile Simpler diode laser.

The doctor smile SIMPLER diode dental laser is easy to use and has an affordable price. It is an excellent investment for any dental practice. Fast and easy laser treatment of endodontics, periodontics, surgery, therapy, implantology and whitening is promptly available thanks to the pre-set treatments on the touch screen display.
